PROFILE

Mathematics and computer science graduate with strong understanding in Microsoft Technologies, Computer Networks, Inventory software, data entry and analysis, mathematics and computer systems and administrative office. Currently I am a software developer and a data analyst. Passionate about Shipping and Logistics with strong background and understanding. Eager to join a dynamic team to grow in shipping and Logistics.

CAREER INSPIRATION

To utilize my interpersonal, communication, organizational skills and professional abilities to support the advancement of business for global prosperity.

To secure a position in an organization where I can utilize my skills for the benefit of the establishment and ultimately prove to be invaluable asset through my ability, hard work, commitment, dedication and strong devotion.

CAREER HIGHLIGHTS

- Experienced in cargo tallying, container verification, and logistics documentation within busy port, warehouse, or terminal environments.
- Skilled in inspecting, counting, and verifying incoming and outgoing cargo against shipping manifests, delivery orders, and gate passes.
- Proficient in accurate data entry and record management using Terminal Operating Systems (TOS) and manual tally sheets.
- Strong ability to identify and report cargo discrepancies, including differences in weight, quantity, seal numbers, and documentation.
- Conducted detailed visual inspections of containers and cargo to detect structural damage, leaks, or broken seals, with proper documentation and photographic evidence.

- Experienced in monitoring loading and offloading operations for trucks, trains, and vessels to ensure efficient cargo dispatch and handling.
- Demonstrated attention to detail and accuracy in recording container numbers, seal numbers, cargo types, and damage status.
- Effective team collaborator with experience working alongside Reach Stacker/ECH operators, gate clerks, and customs officials to maintain smooth yard operations.
- Strong coordination, communication, and problem-solving skills in fast-paced logistics and supply chain environments.
- Knowledgeable in logistics, supply chain operations, cargo handling procedures, and warehouse/terminal safety practices.
- Did data entry activities for row data into computer systems and final operations report generation.

PROFESSIONAL EXPERIENCE

Tally Clerk

SGS Kenya Ltd – Mombasa, Kenya

July 2025 – May 2026

- Inspected, counted, and verified incoming and outgoing containers and bulk cargo against shipping manifests and delivery orders as instructed by our client.
- Recorded container numbers, seal numbers, cargo type, size, shipping line details, and damage status accurately in Terminal Operating Systems (TOS) and tally sheets.
- Conducted detailed visual inspections of containers and cargo to identify structural damage, leaks, and broken seals, documenting findings with photographic evidence where necessary.
- Monitored loading and offloading activities of trucks, trains, and vessels to ensure accurate cargo dispatch and operational efficiency.
- Identified and reported discrepancies in cargo weight, quantity, and documentation to minimize operational errors and losses.
- Coordinated effectively with Reach Stacker/ECH operators, gate clerks, customs officials, and warehouse teams to maintain smooth yard and terminal operations.
- Maintained high standards of accuracy, attention to detail, and compliance with logistics and cargo handling procedures in fast-paced environments.
- Collaborated with cross-functional teams to support smooth daily operations.

Data Entry Specialist

SGS Kenya Ltd – Mombasa, Kenya

July 2025 – May 2026

- Entered, updated, and maintained large volumes of operational and client data with high accuracy and attention to detail.
- Verified and reviewed documents, reports, and records to ensure data completeness, consistency, and compliance with company standards.
- Managed data entry processes for inspection, logistics and certification records within strict timelines.
- Generated and maintained digital and physical filing systems to support efficient document retrieval and record management.
- Prepared reports, spreadsheets, and summaries using Microsoft Excel, Word, and database management systems.
- Maintained confidentiality and integrity of sensitive company and client information during data processing activities.
- Assisted in administrative and operational support tasks to improve workflow efficiency and service delivery.
- Demonstrated strong typing speed, organizational skills, and ability to work effectively in fast-paced environments with minimal supervision.
